# Welcome

Congratulations!

You have made an excellent choice with the purchase of this quality AIRBRUSH HEAVEN product.

By doing so you now have the assurance and peace of mind which comes from purchasing a product that has been manufactured to the highest standards of performance and safety, supported by the high quality standards of Airbrush Heaven.

We want you to be completely satisfied with your purchase so this AIRBRUSH HEAVEN product is backed by a comprehensive manufacturer's 1 year warranty and outstanding after sales service through our helpline.

We hope you enjoy using this product for many years to come.

If you require technical support or in the unlikely event that your purchase is faulty, please telephone our helpline for immediate assistance. Faulty product claims made within the 1 year warranty period will be repaired or replaced free of charge provided that you have a satisfactory proof of purchase (keep your receipt/invoice safe). This does not affect your statutory rights. However be aware that the warranty will become null and void if the product is found to have been deliberately damaged, misused and/or disassembled other than directed. See warranty certificate for full details at the back of this guide.

# Storing the Booth

After you have finished with the unit press the switch located on the back to the 'Off' position. Disconnect the mains lead from the mains outlet. Press the cable retraction button located on the back of the unit.

Retract Cable

## Please Note:

*The retraction mechanism is spring loaded, watch your fingers and surroundings.*

Once the cable has retracted to within the housing, unclip the top panel and push it down and raise the bottom panel till it meets the case. The spray booth is closed.

If you need to move the spray booth completely, release the spring clip at the back of the spray booth and remove the hose off the extraction outlet. Collapse the hose. Place the spring clip and the extractor hose in a safe place for later use.

# Changing the Filter

The spray booth is provided with a filter already installed but you will need to change this later on through a fair amount of use.

To do this press down on the filter housing inside the booth, unclip the tabs and pull it towards you.

You will see two filters, the blue one the main filter and a white thinner secondary filter to protect the working parts. Remove the blue filter and dispose of it safely depending on the chemicals used with it and replace a new filter within the frame.

Place the frame on the bottom edge at the read mesh and lift the frame up till the tabs click into place.

Replacement filters are available from our website.
